The left-hand navigation pane is expanded to 'Computer Configuration' > 'Policies' > 'Windows Settings' > 'Security Settings' > 'Policy-based QoS', which is highlighted with a green box. The right-hand pane is titled 'Policy-based QoS' and contains the following information:

Policy Name	Application Name ...	Protocol
Lync Audio		

Below the table, there is a section for creating a QoS policy. It includes a text box for 'Policy name:' containing 'Lync Audio'. Below that is a checked checkbox for 'Specify DSCP Value:' with a spin box set to '46'. The spin box is highlighted with a red box.
